

# Modularized LNG Plants

State-of-the-art liquefaction plant for on-shore deployment.

## Key Features

- Scalable Capacity
- Lower CAPEX
- Maximum Modularization Design
- Competitive Schedule

**Capacity: 1.2 MTPA / Train**

### Main Equipment

MRC Driver: Gas Turbine / Moter  
Main Exchanger: Cold Box

### Gas Pre-Treatment: 4 Modules

Acid Gas Removal  
Dehydration & Mercury Removal  
NGL Extraction & Feed Gas Booster  
Inlet Facilities & Condensate Stabilization
